

About AmericanTowns

What We Do

AmericanTowns offers communities a single online location for everything--and everyone -- needed to navigate daily life in their town. The AmericanTowns site is an indispensable practical tool and the most effective way to bring neighbors together.

IT'S ORGANIZED

By organizing a town's many internet resources under a single umbrella, AmericanTowns helps people quickly find out what's happening in their local government, schools, libraries and community groups. It's the place to instantly find recreation, entertainment, fun places to take the kids, restaurants, movies, realtors, businesses and other professional services.

AmericanTowns is also the best way to stay up to date on that school amendment or zoning plan ---and make your voice heard.

LOTS HAPPENING, ONE PLACE TO FIND IT ALL

The heart of the AmericanTowns network is a community calendar. Any nonprofit group can submit events; individuals then add them to their personal AmericanTowns calendar. Use your AmericanTowns site to announce important dates: plays, games, meetings, election dates, fairs and festivals, school events and more.

SPREAD THE WORD

Our simple tools let a group or small business easily create its own content. AmericanTowns is the quickest way to spread the word about meetings, events, sales and important issues. Share your good news and post your press releases. And with additional features like polling and chat rooms, you can discover what the town is thinking and doing.

EVERYONE'S WELCOME

Everyone can use AmericanTowns - just sign up and create a page for almost anything. With a "personal profile" you can connect with others in the community who share your interests. Or use AmericanTowns to publicize an event. From theater groups, sports teams and garden clubs to historical society events, political and social activism or business chamber meetings, AmericanTowns is the virtual heart of YOUR community.
