

About My Local Services

Welcome to My Local Services. We are an online business directory that covers the whole of the USA, offering an easy to use interface, allowing visitors to find the business they require quickly. Although the website and searches are nationwide, it is broken down into States to give it a more local and friendly feel.

My Local Services is operated by Lowi Ltd which is based in the United Kingdom and also operates [My Local Services UK](#), along with our Free Business Support Forum [My Local Forums](#).

We are a small team, but have built up a reputation over many years as a customer service orientated company, and will strive to maintain our current high standards in resolving any issues or answering any queries.

My Local Services has, and continues to evolve as a direct consequence of customer and visitor feedback, and we take all feedback seriously. So if you have a query, want to recommend or suggest a new feature, or simply want to let us know what you think, then please [get in touch](#).
